In addition to selecting the **Max-Uptime Boiler Maintenance Program** level that is right for your organization, you will work with your **Bay City Boiler** professional to determine the best preventative maintenance schedule for your boiler room equipment.

Your customized Max-Uptime plan will include up to twelve scheduled trips per year to your facility to maintain your equipment. One of those visits will be the annual where the boiler must be down for both internal and external inspection. We will custom tailor your inspection and maintenance program to fit your needs. Our goal is to keep your equipment operating time UP and ZERO DOWNTIME.

Sample Max-Uptime Inspection and Preventative Maintenance

Service *	Annual Inspection	Semi-Annual, Quarterly, Monthly
